Les Naturels

People have always been attracted to natural materials and woven grasses in particular, which have been used in and around the house for centuries. Over time, these fabrics have become sturdier, with more applications.

And now these materials have inspired the Les Naturels collection, in which the warmth of raffia, the subtle texture of sisal and the natural looks of woven grass are finally given the attention they deserve. The materials' organic origins and authentic colours bring a sense of calm to interiors, drawing nature indoors. They also combine beautifully with the two botanical prints in this collection.

La Prairie

La Prairie is a stunning, realistic representation of woven grass with its broad, irregular bands.

La Prairie is available in 9 colourways.

Le Sisal

Sisal was first used widely at the end of the 19th century. Since then, it has become a popular fibre in interior design, including on walls. This design is a natural interpretation of beautifully woven sisal in a warm, calming colour palette.

Le Sisal is available in 14 colourways.

Le Raphia Tissé

This design is a true-to-nature representation of open woven raffia against a coloured background. The colour palette of the background varies from subtle terracotta to striking turquoise, contrasting beautifully with the natural hues of the raffia strands. A wallcovering that retains its calming, natural appeal in every colour variant.

Le Raphia Tissé is available in 12 colourways.

Verdure

Nobody knows exactly when the first verdure were created, but by the 16th century, these tapestries were everywhere. They were entirely filled with decorative foliage, which was often highlighted by a masterful interplay of sun and dappled shade. Verdure's lush leaf pattern, which draws on these traditional tapestries for inspiration, is hand-painted. Light and shadow planes have been rendered with the greatest care, to create a superb setting with plenty of depth. The painting was then transferred onto a luxury fil-à-fil fabric, just the perfect choice for this opulent ornamental design.

Verdure is available in 3 colourways.

Rêverie Tropicale

A dreamy panoramic view that takes you to higher realms. Who wouldn't want to spend some time amid the lush foliage of this gorgeous oasis? The detail in this design is impressive, but upon closer inspection the subtle woven grass print in the background suddenly catches the eye, adding a natural accent to the design and the material on which it has been printed.

Rêverie Tropicale is available in 2 colourways.
